

Pie Chart Visuals for Dashboard

Pie Chart 1: Sales by Region

This chart shows the contribution of each region to the total sales.

Region	Sales (\$)
--------	------------

--	--

North	120,000
-------	---------

South	95,000
-------	--------

East	140,000
------	---------

West	100,000
------	---------

Insight: East contributes the most to overall sales.

Pie Chart 2: Profit by Product Category

This visualization highlights which product categories are the most profitable.

Category	Profit (\$)
----------	-------------

--	--

Furniture	25,000
-----------	--------

Office Supplies	18,000
-----------------	--------

Technology	40,000
------------	--------

Insight: Technology leads in profitability.

Pie Chart 3: Sales by Customer Segment

Displays sales distribution among customer segments.

Customer Segment | Sales (\$)

----- | -----

Consumer | 130,000

Corporate | 95,000

Home Office | 80,000

Insight: Consumer segment generates the highest sales.

Pie Chart Best Practices

- Limit to 5-6 categories for clarity.
- Use tooltips for details in interactive dashboards.
- Keep colors consistent with overall theme.
- Consider donut charts for better modern visuals.
